16. Vocal 3
17. Vocal 4
- 18-19. Phone Output for Intro Tape

NOTES

- Please note that the lead vocalist will be utilising in-ear monitors (provided by the band) if possible rather than a wedge.
- This is an 'Ideal' spec. We can easily accommodate smaller PA setups. With the drum kit in particular, please mic it up as you deem appropriate to the room.
- We may start our show with a pre-recorded intro track played from an MP3 player or phone. If this is the case, please supply a standard stereo mini-jack offstage (or at the sound desk if necessary).
- Please no excessive reverb on vox/fiddle and no delay whatsoever on vox/fiddle
- For ceilidhs or instrumental sets; vocal lines 2, 3 and 4 are NOT necessary and neither are the phone channels.
